

## **The Rotary Foundation Cadre of Technical Advisors** *Called the IRS of/for TRF*

The CADRE was formed in 1995 during the time when all of our now Global Grants were called 3-H Grants.  
(Health-Hunger-Humanity)

When TRF found that many Grants were not having the “Sustainability” that they felt they should have, the CADRE was formed.

In 2001 the field of Technical Rotarians was formed.

The CADRE will visit a project before-during-after a project is completed. In some cases, a CADRE will visit a project 2-4 years later.

Today WATER projects have drawn close attention due to the many failures of the past.

Our main goals are to see that our money is being spent on the right projects and whether from our past experience we can provide ideas that will make them successful.

For more information about the Cadre, please visit <https://my.rotary.org/en/cadre-technical-advisers>

With questions about the Cadre, please email [cadre@rotary.org](mailto:cadre@rotary.org) or [cpadilla@dcn.org](mailto:cpadilla@dcn.org)
